

"LASER" JACUZZI® SAND FILTERS

An elegant tank in polyethylene, resistant to internal corrosion and abrasion, no welding.

Diversified stratification of filtering bed ensures better filtration as well as perfect and safe cleaning during backwash stage.

Equipped with :

- Jacuzzi® manual-started 6-way valve, top-mounted
- Easy-to-read pressure gauge
- Convenient bottom for winter drain
- Pipe fittings
- Backwash indicator light

Special lower spreaders system to ensure perfect flow distribution without channelling.

| model | diameter | | w. flow | content * | | filter m ² | code | PRICE LIST |
|-----------|-----------|-------------|----------------------|---------------------|------------------------|-----------------------|--------|------------|
| | filter mm | connections | | gravel ¹ | quartzite ² | | | |
| LASER 192 | 483 | 1"1/2 | 10 m ³ /h | 1 bag | 3 bags | 0,17 | FJL192 | € 287,00 ✓ |
